57356-BV: UltraClean™ LASIK PVA Eye Spears
Compressed shape, designed for fast expanding. Made from highly absorbent, virtually lint free PVA material. Designed specifically for rapid recovery of fluids during LASIK and other corneal procedures.

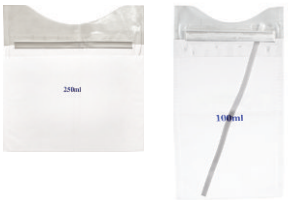

57268-BV: Visitec® LASIK PVA Expanded Eye Spear
Made from highly absorbent PVA material. Pre-expanded for convenience. Designed to provide instantaneous wicking. No need to pre-soak and fan.

57507-BV & 57109-BV: Weck-Cel® Cellulose Eye Spears
Made from highly absorbent, natural, cellulose material. Designed for use in delicate, surgical areas and to maintain rigidity during wicking process. Light blue handle.

57020-OP: Visiswab Cotton Swabs
Pointed end may be used as a second instrument to absorb blood and fluid, move sutures and manipulate tissue. Rounded end may be used for scleral depression. Tightly wound ends create less linting than other cotton swabs. 7.6cm (3 in) overall length.

57127-BV & 57138-BV: Visitec® Fluid Collection Bags
For procedures where collection and control of fluid is designed to keep surgeon, patient and floor dry. Reduces operating room cleanup and turnaround time. Bags have an adhesive backing to adhere to surgical drape.

Knives & Blades

Beaver Mini Blades

Beaver® Mini-Blades are designed to enhance control and precision in a broad range of ENT surgical procedures.

- Grindless manufacturing technology ensures consistent sharpness and blade geometry
- Patented tip design simplifies assembly, threading directly onto the handle, with no chuck collect required
- New packaging tray with integrated finger-holds allows safer assembly, with no direct contact between fingers and blade or tip
- Supplied sterile, single use only, one per pack, 5 year shelf life
